

## The Association

In 1994, Susanne Schüpfer from Basel made a stopover in Nha Trang on her trip through Asia and she was deeply touched by poverty of its population. This city with 500'000 inhabitants is located at the South China Sea and has a beautiful beach with many hotels and also many needy people who live in unworthy conditions. The idea quickly matured that help, no matter how modest, was urgently needed here. With this goal in mind, Susanne Schüpfer set to work and in 1995 founded the association Hilfe für Vietnam/ Susann's Help for children with entry in the commercial register of the city of Basel. The first goal is to find sponsors for education from needy families. In addition, the association furnishes furniture and household items, as well as the renovation and new construction of houses. In winter we also distribute plenty of food packages to those in need. In the many years, however, a lot has changed. Today many people are doing well and the construction of so numerous hotels and factories has given work to many people. Susanne Schüpfer continues to draw strength from the gratitude and kindness of the disadvantaged population to continue her selfless work, which has now turned into her real life task. She finances these extra activities by selling products on her stand and by donations. Susanne Schüpfer can be found with her mobile sales stand (bicycle trailer) in front of various shopping centers in Basel and the surrounding area on many days of the year, except when she spends time working in Vietnam. From early in the morning until closing time she sells knitwear made by helpful women of the association and articles she has brought from Vietnam. With stand sale she is not only able to cover administrative costs; she also generates a surplus of more than CHF 100,000, which she fully uses for her aid projects. Susanne is happy about every purchase, about every visit of members at the booth and of course about every donation.

Thank you very much for your invaluable help !

Susanne Schüpfer
